JUST PRESS A BUTTON TO ENJOY A CREAMY CAPPUCCINO

CAPPUCCINO, CAFFÈ MACCHIATO AND MUCH MORE

GAGGIA Babila makes espresso in keeping with the finest Italian tradition in just a few seconds directly from freshly ground coffee beans, cup after cup, with the simple press of a button.

Advanced technology designed for coffee perfection

- Delicious hot Cappuccino and Latte Macchiato at one touch
- Extract maximum flavor with the 100% ceramic grinders

A variety of coffees customized to your taste

- A multitude of specialty coffees at the touch of a button
- The strength selection remembers just how strong you like it
- Fine-tune the coffee's richness with 15 grinder settings
- Enjoy a crema layer as you like it with a twist of a knob
- Refine the coffee taste by adjusting the pre-brewing time

High comfort is part of the experience

- Proven hygiene with the patented steam cleaning carafe
- Up to 5000 cups* without descaling with AquaClean filter
- Cutting-edge design with stainless steel finishing
- The fully removable brewing group can be cleaned in no time

GAGGIA
MILANO

Super-automatic espresso machine
Brews 7 coffee varieties Integrated milk jug & frother, Steel/Silver, 15-step adjustable grinder

HIGHLIGHTS

15 grinder settings

When it comes to the fineness of the grind, this machine never fails to satisfy. Different coffee blends require different levels of granularity for the full flavor to unfold. So the grind granularity of this machine has eight adjustable settings - from the finest grind for a full-bodied espresso, to the coarsest for a lighter coffee.

Specialty coffees at one touch

From espresso to frothed milk, there is an assortment of options waiting to satisfy your coffee cravings. Whether it's first thing in the morning or an after dinner treat, there's a taste for any time of the day, right at your fingertips.

AquaClean filter

AquaClean

AquaClean water filter ensures you make the most out of your full automatic coffee machine. By changing the filter at machine request, you will not need to descale your machine for up to 5000 cups*, while getting the benefit of clear and purified water. As an added benefit, the descaling notification alarm is automatically deactivated once AquaClean is installed in your favourite Gaggia coffee machine.

Ceramic grinders

The robust 100% ceramic grinders guarantee a moment of pure coffee indulgence for years to come. The ceramic material creates the ideal grind, which allows the water to flow through steadily, extracting the purest essence of the beans. And unlike other 'regular' grinders, the ceramic material prevents the coffee from overheating and tasting burnt.

Crema layer the way you like

Enjoy a crema layer just the way you like it and discover a wide spectrum of tastes, all with the twist of a knob! You control the coffee flow and brew

pressure to vary the body and thickness of the crema with one easy move. Turn it left for a luxurious, thick crema layer and an intense and full bodied espresso; Or turn it right for a smooth, lighter tasting coffee with less crema.

One-touch Cappuccino and Latte

For an irresistible, creamy foam consistency, the integrated milk carafe froths the milk twice, removing bubbles and impurities. At one press of a button, a splash-free flow of velvety foam pours straight into your cup at a comfortable temperature. Thanks to the powerful double boiler, it can steam for milk frothing and brew espresso immediately after for perfectly hot drinks without the wait.

Fully removable brewing group

Efficiency and ease of use. The brewing units is so simple to clean - just remove it and wash it under the tap for a few seconds, then re-insert it just as easily.

Pre-brewing time

You can even influence the taste of your coffee by adjusting the pre-brewing time. Prebrewing ensures the coffee grounds are moistened before brewing so that aromas unfold evenly. Unlike conventional espresso machines with a pre-brewing function, Gaggia allows you to adjust the pre-brewing time to get the taste just to your liking.

Stainless steel finishing

An elegant vision of pure design, this machine looks as refined as the coffee it makes. The stainless steel front, inspired by Italian design and craftsmanship will stand the test of time in a classic or modern kitchen. Add to this its intuitive design features, and it becomes a richly fulfilling coffee experience.

Steam cleaning carafe

Maintaining high hygiene has never been this easy. Thanks to the Steam Cleaning Cycle, the frothing mechanism will be automatically cleaned, removing milk residues without the need to empty the carafe. The hygienic performance is certified by the independent German test institute, VDE.

Strength selection

Once you've chosen your ideal strength from the 5 different settings, you can easily save it with the Memo Function, as well your desired length and temperature. Then every cup in the future will be customised exactly to your taste. You'll never have to remind it again, unlike the local barista.
