THE QUALITY YOU DEMAND, THE EASE OF USE YOU
EXPECT

A TIMELESS DESIGN MADE IN ITALY

Just press a button and in a few seconds you'll have coffee as good as from an espresso bar, ready to savour. A "tailor-made" coffee because you choose the grind, shot length and body according to your taste.

Any coffee for any moment

- Enjoy 3 one-touch beverages
- Delicious milk froth thanks to the classic milk frother
- Adjust the length, and select from 5 aroma strengths and 10 grinder settings
- Adjust and store your personal user profile

Every coffee crafted to perfection

- Extract maximum flavour with the 100% ceramic grinders
- Hot coffee from the first cup with the quick-heat boiler
- Adjust your coffee spout to fit any cup

Attentive and anticipating at your command

- Up to 5000 cups* without descaling with AquaClean filter
- Smartly designed to fit any kitchen worktop
- Enjoy a great coffee with Auto-Rinse and guided descaling
- Thorough cleaning thanks to a fully removable brewing group

MILANO

HIGHLIGHTS

Customise your coffee

This Super-Automatic machine offers an abundance of indulgent options to customise your beverage to your taste. You can easily personalise and memorise length, strength and temperature for each drink. Feel free to explore, experiment and dream up any drink!

AquaClean filter

AquaClean

AquaClean water filter ensures that you make the most out of your fully automatic coffee machine. By changing the filter at the request of your machine, you will not need to descale it for up to 5000 cups*, while benefitting from clear and purified water. In addition, the descaling notification alarm is automatically deactivated once AquaClean is installed in your favourite Gaggia coffee machine.

Ceramic grinders

The robust 100% ceramic grinders guarantee a moment of pure coffee indulgence for years to come. The ceramic material creates the ideal grind, which allows the water to flow through steadily, extracting the purest essence of the beans. And unlike other "regular" grinders, the ceramic material prevents the coffee from overheating and tasting burnt.

Auto-Rinse and Guided descaling

This espresso machine automatically cleans its coffee circuit with water upon starting up or switching off of the machine, delivering a great, fresh taste with each cup of coffee. Regular descaling prolongs your espresso machine's life. This machine will prompt

when descaling is needed. It will guide you with on-screen messages what you have to do and when.

Quick-heat boiler

The quick-heat boiler ensures a hot coffee or cappuccino for you and your family from the first cup, in no time. The secret is in its light aluminium and stainless steel body, which can reach hot temperatures, fast.

Personal user profile

Store the length of any coffee and milk beverage according to your personal taste. You will be able to drink espresso, coffee and all other beverages, always as you prefer, at the touch of a button.

Front loading for easy access

Your super-automatic espresso machine is effortless to use thanks to the front loading of the water tank and the dump box.

Adjustable coffee spout

The adjustable spout on our espresso machines will fit every cup and thus prevent the coffee splashing or cooling down while being poured into your cup. This way your espresso is always served at the right temperature, while the machine is kept clean.

Classic milk frother

The Classic Milk Frother, which baristas also call Pannarello, dispenses steam to help you easily prepare soft milk foam for your cappuccino. Unleash your inner barista by preparing your delicious milk specialities the traditional way!

3 one-touch beverages

Enjoy your favourite drinks for your special moments. Whether you crave an espresso, an americano or a latte, your Super-automatic machine delivers a perfect result with no hassle and in no time!

Removable brewing group

The brewing group is the heart of every Super-Automatic coffee machine, and should be cleaned regularly. The fully removable brewing group allows you to clean it thoroughly just by rinsing it under the tap
