3 coffee varieties from fresh beans made easy

Aromatic espresso and coffee at your fingertips

Enjoy aromatic coffee drinks from fresh beans at the touch of a button. All drinks, including Espresso, Coffee and Americano, are customizable in strength, temperature and volume.

High quality coffee from fresh beans

- 20,000 cups of finest coffee with durable ceramic grinders
- Coffee at the perfect temperature with our Quick Heat Boiler
- Aroma seal keeps your beans fresh for longer

A variety of coffees customized to your taste

- Adjust the volume, 5 aroma strength and 5 grinder settings
- Delicious milk froth thanks to the classic milk frother
- Adjust and store your personal user profile

Effortless use and cleaning for everyday enjoyment

- Visible hygiene thanks to fully removable brewing group
- Up to 5000 cups* without descaling thanks to AquaClean

PHILIPS

Highlights

100% ceramic grinders

Our grinders are 100% pure ceramic: extremely hard and precise, so you can enjoy fresh aromatic coffee, for at least 20.000 cups.

Quick Heat Boiler

The Quick heat boiler ensures a hot coffee and cappuccino for your family always at the perfect temperature. The secret is in its light aluminum and stainless steel body, which can reach hot temperatures, fast.

Preserve beans' aroma

The new Aroma seals will protect your favorite coffee beans and make sure they maintain their original aroma over time, while reducing the grinder noise.

Classic milk frother

The Classic Milk Frother, which baristas also call Pannarello, dispenses steam to help you easily prepare soft milk foam for your cappuccino. Unleash your inner barista by preparing your delicious milk specialties the traditional way!

Customize your coffees

This Super-Automatic machine offers an abundance of indulgent options to customize your beverage to your taste. You can easily personalize and memorize length, strength and temperature for each drink. Feel free to explore, experiment and dream up any drink!

MEMO function

You will always get a coffee brewed to your personal preference thanks to our memo

function, which allows you to adjust and save the coffee and cappuccino length in your cup. With this function, your machine will know exactly how you prefer your coffee and cappuccino.

Removable brew group

The brewing group is the heart of every super-automatic coffee machine, and should be cleaned regularly. The fully removable brewing group allows you to clean it thoroughly just by rinsing it under the tap

AquaClean filter

AquaClean

Our new and patented innovation, AquaClean water filter, ensures you make the most out of your full automatic coffee machine. By changing the filter at machine request, you will not need to descale your machine for up to 5000 cups, while getting the benefit of clear and purified water. As an added benefit, the descaling notification alarm is automatically deactivated once AquaClean is installed in your coffee machine

Specifications

Design

- Color: Black

Country of origin

- Made in: Romania

General specifications

- Milk Solution: Classic Milk Frother
- User Interface: Basic Display

Technical specifications

- Capacity waste container: 15 servings
- Frequency: 50 Hz
- Max. cup height: 150 mm
- Voltage: 230 V
- Cord length: >100 cm
- Waste container: Frontal access
- Water tank: Access from the top
- Weight of product: 7.2 kg
- Product dimensions: 221 x 340 x 430 mm
- Coffee bean capacity: 250 g
- Capacity water tank: 1.8 L
