The LE-Series is crafted with comfort and efficiency in mind. Its ergonomically-designed stand allows multiple viewing options, while its low blue light filter and flicker-free backlight ensure a comfortable viewing experience. Multiple connectivity options—DisplayPort, HDMI, and VGA—enable a wealth of multimedia applications and flexibility of connections. Various preset picture modes and colour settings are provided for different screen applications both at the workplace and in the home.
Maximized Comfort and Efficiency
An ergonomically-designed stand makes it possible to configure your workstation and create a working environment the way you want it. For comfort, convenience, and efficiency, tilt, pivot, or swivel the display, adjust its height, or shift to either portrait or landscape mode.

Eye Comfort
Eye comfort figures high on the list of strengths that define the LE-Series. The flicker-free backlight and blue light filter of the LE-Series ensure a comfortable viewing experience by reducing eyestrain after long periods of use.

Flexible Connectivity and Multimedia Options
Connectivity versatility brings immense flexibility. Given its HDMI, DisplayPort, and VGA input options, you can easily connect an LE-Series display to your current or older peripherals, like PCs, laptops, or media players and enjoy Full HD resolution video and audio content.
