

Introducing the daily favourite defender

Excellent performance in under an hour with the ÖKOPower programme. Optimized for your daily favourites, it thoroughly cleans a mixed load in only 59min. Efficient cleaning at lower temperatures is enabled by our unique pre-mixing technology. For outstanding care with less energy consumption.

Your favourite pieces need to be treated gently to ensure their quality remains timeless, no matter how often you wear them. For the first time ever, ÖKOMix Technology in AEG washing machines guarantees that every fibre is cleaned and cared for, even in shorter cycles. Every thread. Every stitch. Expertly protected.

Product Benefits & Features

Thorough care quicker. With the ÖKOPower programme

ÖKOPower is the daily washing programme that gives you everything you need. Wash clothes in only 59min with great results and less energy consumption. It's the ideal programme for daily use with no compromise on performance or sustainability. It's thorough care quicker.

- LogiControl™ touch display
- LED display
- 8 kg wash capacity
- 1600 spin speed RPM
- Programmes include:
 - Steam programmes
 - Anti-allergy programme
 - Wool plus programme
 - Delicate programme
 - Cottons programmes

Fibre protection with the ÖKOMix technology

With ÖKOMix, every trace of detergent and softener is mixed with water, dissolving and activating completely before it even enters the drum. It's the first washing machine technology to distribute detergents and softeners completely evenly - making sure they reach, clean and care for every fibre.

Caring for clothes. Saving water and energy

ProSense technology® automatically weighs each load to provide a tailored cycle. Sensors then adjust washing times precisely, ensuring optimum treatment for every garment. Your laundry comes out with that fresh, new feeling every time, plus you save water and energy.

Less ironing. Clothes refreshed

These AEG washing machines use steam as a quick and easy way to refresh creased clothes so they're ready to wear. The short, gentle steam programmes safely remove odours and reduce creases in dry fabrics. Or you can finish your wash cycle with a gentle steam so clothes need little to no ironing.

ÖKOINVERTER, THE LOWEST ENERGY CONSUMPTION

The energy-efficient ÖKOInverter motor offers you the highest efficiency and durability and ensures superior performance, whatever programme you select.
