

### It's the little black dress guardian

Our 9000 series washing machines purifies and softens water, cleaning as thoroughly as a 60 degree wash at just 30 degrees to maintain every garment's shape and feel, keeping each colour looking like new.

Our 9000 series washing machines purifies and softens water, cleaning as thoroughly as a 60 degree wash at just 30 degrees to maintain every garment's shape and feel, keeping each colour looking like new.

## Product Benefits & Features

### Softer water, kinder to clothes

All mains water contains minerals that can be harsh on fabrics. These AEG washing machines are the first in the world with the technology to remove them. The ion-exchange filtering system optimises the water entering the drum for detergents and softeners to work at maximum efficiency, even at the lowest temperatures. Gentle

- LogiControl™ touch display
- 9 kg wash capacity
- 1600 spin speed RPM
- Programmes include:
  - Steam programmes
  - Anti-allergy programme
  - Wool plus programme
  - Delicate programme
  - Cottons programmes
  - Synthetics programmes

### Every fibre cleaned and protected

In a standard washing machine less than a third of fibres are reached by the fabric softeners you use. With ÖKOMix, every trace of detergent and softener is mixed with water, dissolving and activating it completely before it even enters the drum. It's the first washing machine technology ever to

### Meet the small print expert

Connect appliances to the app for a smarter, faster way to superior care. The Care Advisor uses AEG expertise to recommend the best program for garments, so that even woollens, silks and handwash-only delicates can be cleaned with confidence. 48 fabrics and 40 stains can be treated efficiently. All

### Caring for clothes. Saving water and energy

ProSense technology® automatically weighs each load to provide a tailored cycle. Sensors then adjust washing times precisely, ensuring optimum treatment for every garment. Your laundry comes out with that fresh, new feeling every time, plus you save water and energy.

### Less ironing. Clothes refreshed

These AEG washing machines use steam as a quick and easy way to refresh creased clothes so they're ready to wear. The short, gentle steam programmes safely remove odours and reduce creases in dry fabrics. Or you can finish your wash cycle with a gentle steam so clothes need little to no ironing.
