OUTSTANDING PERFORMANCE

- EA193Mi sets new standard in environmental compatibility. The Ambient Light Sensor serves to increase energy saving even further. It measures the ambient light and adjusts the screen to the optimum brightness automatically without any manual settings being required. The use of recycling plastic for the monitor housing and of mercury-free materials fulfil the demands of the NEC “Green Vision” campaign.

- The connection options ensure leading-edge compatibility. With a DisplayPort, a DVI-D as well as an analogue interface, the NEC MultiSync® EA193Mi provides outstanding connectivity and the optimum basis for all business applications. The display also features speakers and a headphone socket for comfortable office communication.

- Height adjustment through up to 110 mm and the pivot function allow the screen to be positioned to meet individual needs and ensure a high degree of userfriendliness. Thanks to its ergonomic and ecological characteristics, the monitor has gained TCO 6.0 certification and been awarded the EPEAT Gold Seal.

- The eco-friendly display further extends our comprehensive range for the corporate sector. It helps to reduce running costs throughout the display’s entire lifetime and its features make daily operations simpler and more productive. Excellent value for money.
